## Training overview

### Implementing SAFe® 6.0

*Achieving Business Agility with the Scaled Agile Framework*

*Certified SAFe® Practice Consultant (SPC) 6.0*

### Key points

<b>Training name: Implementing SAFe® 6.0</b>
<b>Certification name: SAFe® Practice Consultant (SPC) 6.0</b>
<b>Training hours: 35 hours</b>
<b>Duration in-person training: 4 days</b>
<b>Duration distance training: 7 or 8 half-days</b>
<b>Pricing: Contact us</b>
<b>Contact: <a href="mailto:formation@digitaltango.ca">formation@digitaltango.ca</a></b>
<b>Language available: French or English</b>
<b>Courseware : English</b>

## Operational and assessable objectives:

- Become a leading agent for change—and enable your enterprise to succeed in a disruptive marketplace—when you certify as a SAFe® Practice Consultant (SPC) 6.0
- Learn how to lead a Lean-Agile transformation by leveraging the practices and principles of the Scaled Agile Framework® (SAFe®)
- Learn how to coach Agile Release Trains (ARTs), launch ARTs, build a Continuous Delivery Pipeline with DevOps culture and empower a Lean Portfolio
- The first two days of the course—Leading SAFe®— will provide you with the basis to teach SAFe to leaders
- The final two days focus exclusively on what it takes to successfully implement SAFe in the enterprise

## Target audience:

- Professional Services Consultants
- Internal Change Agents, Lean-Agile Center for Excellence (LACE) participants, Agile Working Groups
- Business and Technology Executives, Leaders, Managers, and Directors
- Portfolio Managers and Fiduciaries, Project/Program Management Office (PMO) personnel
- Development, QA, and IT Managers
- Program and Project Managers
- Product and Product Line Managers
- Process Leads and Lifecycle Governance personnel
- Enterprise, System, and Solution Architects

## Topics covered:

### Leading SAFe Days 1–2

---

## Implementing SAFe® 6.0

---

- Introducing the Scaled Agile Framework
- Embracing a Lean-Agile Mindset
- Understanding SAFe Principles
- Creating High-Performing Teams and ARTs
- Experiencing Program Interval (PI) Planning
- Exploring, Executing, and Releasing Value
- Leading a Lean-Agile Enterprise
- Empowering a Lean Portfolio
- Building Large Solutions
- About the Exam

### Implementing SAFe Days 3–4

- Reaching the SAFe Tipping Point
- Designing the Implementation
- Launching an ART
- Coaching ART Execution
- Extending to the Portfolio
- Sustaining and Improving
- Becoming a SAFe® Practice Consultant (SPC)

### Prerequisite:

All stakeholders in a Lean-Agile transformation are welcome to attend the course, regardless of experience. However, the following prerequisites are highly recommended for those who intend to take the SAFe® Practice Consultant (SPC) 6.0 certification exam and practice as a SAFe® Practice Consultant (SPC):

- 5+ years of experience in software development, testing, business analysis, product, or project management
- 3+ years of experience in Agile

## Implementing SAFe® 6.0

---

- One or more relevant Agile certifications

### At the end of this training, you will be able to:

- Lead an enterprise Lean-Agile transformation
- Implement the Scaled Agile Framework
- Empower with a Lean Portfolio
- Align the organization to a common language and way of working
- Perform Value Stream identification
- Launch and support Agile Release Trains, and coordinate Large Solutions
- Build and execute an implementation rollout strategy
- Configure the Framework for a specific enterprise context
- Train managers and executives in Leading SAFe®

As a SAFe® Practice Consultant (SPC), you can continue the learning journey by achieving validation to license and teach SAFe courses. Courses available for validation are:

- Leading SAFe®
- SAFe® for Teams
- SAFe® Product Owner/Product Manager
- SAFe® Scrum Master
- Advanced SAFe® Scrum Master
- SAFe® Release Train Engineer (additional requirements apply)

### What the training includes:

- Attendee workbook
- Eligibility to take the SAFe® Practice Consultant (SPC) 6.0 certification exam
- One-year membership to SAFe Studio
- Course certificate of completion

## Implementing SAFe® 6.0

---

Attendees must attend all of the course in order to qualify for the exam.

### How and when to access:

For public training, registrations are done through Eventbrite, by following the links on this page or on social networks. We offer 2 public trainings of each type per year (about a 6-months delay).

For private training, contact us at [formation@digitaltango.ca](mailto:formation@digitaltango.ca) for a quote. We can then proceed with planning your training and registering your employees (about a 1-month delay).

### Methods used:

- Training provided in French or English
- Face-to-face or distance learning
- Workbook and course material in English
- Materials for practical exercises
- Evaluation of the training via interactive questionnaires during the training to verify the acquisition of knowledge
- Platforms and tools used: Microsoft Teams, Zoom, Mural, Miro, Drive

### Passing the Certification:

At the end of the training, the candidates will receive a link to the SAFe Studio platform and will be able to take the exam. The first test is included in the training within 30 days. Each new test will cost \$295, directly payable on the SAFe Studio platform.

- **Exam format:** Multiple choice questions (MCQ)
- **Method:** web-based
- **Duration:** 2 hours (120 minutes)
- **Number of questions:** 60

## Implementing SAFe® 6.0

---

- Passing score: 48/60 (80%)
- Language: English

Upon completion, candidates receive their results immediately. After passing the exam, candidates receive their certification valid for 1 year. This must be renewed annually and costs \$895/year or through the SAFe Enterprise Subscription (SES).
